Online Management Console (OMC) v4.0.318

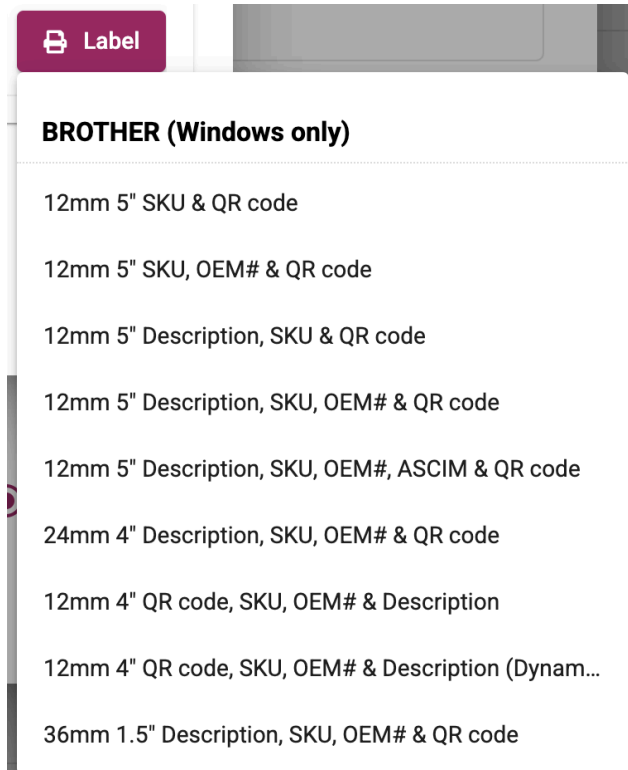

Enhanced Labeling Options

### New Brother Labels (Windows Only)

- You can now create two new types of labels: 12mm 4-inch labels and dynamic length labels.

- These labels include helpful details, QR codes, SKUs (product codes), custom fields, and descriptions to make your labelling more informative.

## More Control Over Your Product Catalog

### Choose What You See

- You can now show or hide specific columns in your product catalogue, ensuring you see only the necessary information.

### Easily Rearrange Columns

- Move columns around with a simple drag-and-drop to organize your product catalogue how you prefer.

### Filter Your Products

Use filters to find quickly:

- All your products.
- Products assigned to specific storage locations.
- Products that haven't been assigned to any storage locations yet.
